

Cellular, Wifi, GPS/GNSS Telematics Antenna

- Dashboard or Windshield Mount
- Cellular, WIFI and GPS/GNSS
- Suitable for M3 Category vehicles (UNECE Reg 118)
- Available with SMA or FAKRA connectors

The GPSCO(F)-7-27-24-58 range of telematics antennas offers a “3 in 1” product for vehicle communications and telematics. The housing incorporates antennas for Cellular/LTE, Dual Band WiFi, and GPS/GLONASS/BEIDOU with a 26dB gain LNA.

Meeting the requirements of UNECE Regulation R 118, the antenna is suitable for use in M3 Category vehicles (Transportation). The antenna housing is UV resistant and flame retardant, while the 3m length integrated coax cables are flame retardant, with low smoke specification.

The antenna offers easy and quick installation on/under the dashboard or on the windshield using the supplied acrylic adhesive pad*

* Performance may change depending on mounting position/surface. The product is not suitable for mounting on conductive surfaces or metalized windows.
